**PROMOCOM TESTIMONIAL Vito, Art director for EVE Online, wrote us the following letter to tell us about what it is like to be the art director of the game:**

**(This letter was originally in Japanese, and then translated by Editor Ren) At the studios, we are extremely proud and happy to have the privilege to develop the game. Because CCP has several different teams developing the game side by side, we are always working on the game together. As a developer, I have always had the experience of working with several different kinds of artists, but the art director of EVE Online is quite different. Unlike the other members of our team, the art director has limited working hours, such as having to leave the office right after work. However, when I think back on the many years spent working on the CCP side, I can say that I really had the great opportunity to enjoy what I was working on. For this reason, I am so grateful to work in EVE, and to have met a wonderful member like Mr. Todd Howard. Moreover, as we look forward to the EVE fans continuing to support the game, I feel a great sense of responsibility.**
